axentra™
rumba
server appliance

**Rumba means
freedom...**

The Rumba promise

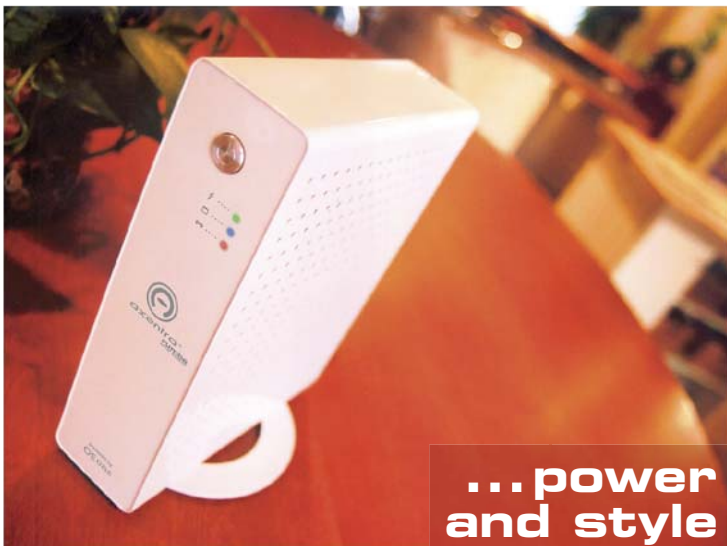

With Axentra's Rumba Multifunction Server Appliance - a network server that is compact, powerful and versatile - you will fully benefit from today's digital lifestyle!

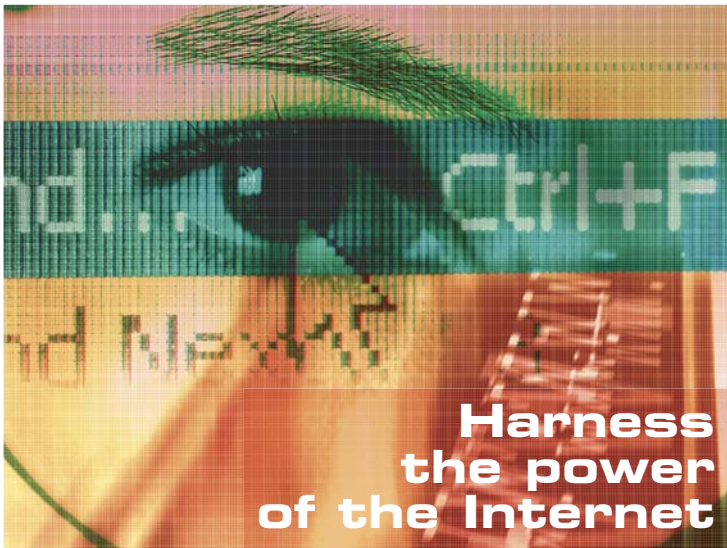

- **Get connected:** Network all your Windows, Mac and Linux PCs and share your peripherals.
- **Harness the power of the Internet:** Share your broadband connection among all your networked computers.
- **Get organized:** Securely store all your files in one place and access them from anywhere, anytime.
- **Protect your privacy:** Keep your important data with you and protect your network with secure Internet gateway features.
- **Be in control:** Create, host and manage your own domain name, web site and email accounts.

Everything you need comes pre-installed. Corporate-grade network and Internet services deployment and management have never been easier!

Get connected,
get productive,
and look professional!

- **Wizard-driven setup,** effortless and efficient for experienced users and beginners alike
- **Powerful web administration tools**
- **Create a fully functioning wired and wireless* local area network and connect Windows, Mac and Linux PCs and laptop computers together**
- **Securely store and share your files all in one place**
- **Access your email and files from any computer within your network and from the Internet - easily and securely**
- **On the road? Take your mobile server anywhere and securely access files, data, and e-mail from any linked computer**
- **Establish broadband connections (Cable/DSL/DHCP) quickly and easily**
- **Share your high-speed Internet connection among several computers**
- **Advanced security features, such as firewall protection**
- **Create and host your website**
- **Create and host multiple e-mail accounts independent of ISP**
- **Parental control - protect users from browsing inappropriate Web sites and offensive content**
- **Spam control - block unwanted e-mail messages**
- **Connect printers (and other peripheral devices) and share them within your network**
- **Have fun - play network and Internet games**

Harness the power of the Internet

- Cable/DSL modems
- Ethernet hubs and switches (10/100 Mbps)
- Wi-Fi* (802.11b) enabled hosts
- Macintosh, Windows and Linux PCs
- Printers (parallel and USB)
- USB hard drives
- USB CD/CDR/DVDs
- Wi-Fi* (802.11b/g) enabled mobile devices (PDAs, etc.)

Hardware Specifications

Motherboard.....	Mini ITX-compatible
CPU.....	VIA C3 800 MHz
Memory.....	256 MB 133 MHz
Hard Drive.....	40 GB
USB 1.1 Ports.....	2 ports
LAN Ports (10/100 BT)...	2
Wan Port (10/100 BT)....	1

Dimensions and Weight

Height.....	9.25 in. (235 mm)
Width.....	2.31 in. (60 mm)
Depth.....	7.00 in. (178 mm)
Weight.....	5.00 lb. (2.3 kg)

Protect your privacy

Operating Conditions

Operating temperature:

- 32° F to 104° F (0°C to 40°C)
- 10% to 80% relative humidity non-condensing

Non-operating temperature:

- 14° F to 122° F (-10°C to 50°C)
- 5% to 93% relative humidity noncondensing

Power Input:

- External, 12 V AC, 5A

LEDs:

- Power
- HDD
- LAN

Regulations:

- Meets or exceeds the following regulations: FCC Class-B, CSA/UL

Software Specifications

Operating Environment

- OEOne Server Operating Environment

Intranet Services

- SMB, WebDAV file services
- Parallel, USB printer sharing via SAMBA Windows domain controller
- WINS Directory
- LDAP Directory
- DHCP server and client

Network Gateway Services

- Internet broadband support (Cable, DSL)
- PPTP remote access VPN
- Network address translation (NAT)
- Port forwarding
- IP filtering
- PPPoE support
- Packet filtering firewall
- Web caching (optional)
- Web access control

Internet Services

- Apache Web server
- Mail server (IMAP, SMTP)
- LDAP directory
- Dynamic DNS support
- MySQL database
- PHP scripting
- SSH server

Application Services

- Web mail
- Web page creation
- Web page publishing
- Web bookmarks
- Photo album publishing
- Address Book
- File Manager

System Management

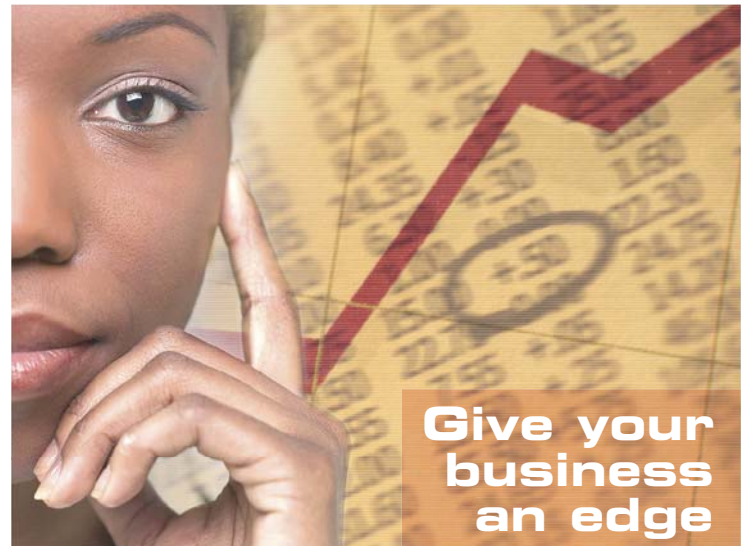

- Web administration interface
- Rights delegation: Multilevel
- Help: Online PHP_BB
- Setup: Browser-based wizards
- Backup: Browser-based to any desktop
- Security: SSL 128-bit encryption

System Requirements

- Broadband cable/DSL Internet service
- Cable/DSL modem with Ethernet RJ-45 connector
- Ethernet connection for each client PC
- Wi-Fi* (802.11b) connection for each Wi-Fi enabled host device
- Client OS: Windows 95, 98, Me, NT, 2000, XP, Mac OS 9 & X, or Linux
- Compatible Browsers:
Microsoft IE 5.5/5.2 or higher (Win/Mac)
